

EQACC SOLAR

Trading Terms for 200kW Energy Storage Container for Urban Lighting

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey metal energy storage container with a black top and bottom. It features two vertical green stripes running down the center. A blue hexagonal warning symbol is positioned in the middle. The letters 'ESS' are printed in green in the upper right corner. At the bottom, there are two yellow triangular warning symbols with lightning bolts.

Overview

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

How to reduce energy consumption in a business?

Many enterprises with high energy consumption began to reduce the power grid consumption by installing photovoltaic systems and battery energy storage, that is peak shaving. SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is a plug & play lithium-ion battery storage container?

Plug&Play lithium-ion battery storage container; Various usage scenarios of on-grid, off-grid, and micro-grid. All-in-one containerized design complete with LFP battery, bi-directional PCS, isolation transformer, fire suppression, air conditioner and BMS; Modular designs can be stacked and combined.
