USA New York Energy Storage Power Station Project

Overview

How many solar and energy storage projects are there in New York?

Governor Kathy Hochul today announced awards for 22 large-scale solar and energy storage projects in New York. These projects will deliver enough clean, affordable energy to power over 620,000 New York homes for at least 20 years.

How many megawatts of energy storage are there in New York?

As of November 2022, New York has awarded over \$500 million to support approximately 130 megawatts of operating energy storage in the state. There are more than 1,300 megawatts of additional energy storage under contract with the State and moving towards commercial operation.

What incentives are available for the New York-Sun project?

The Project is expected to be eligible for incentives under the New York State Energy Research and Development Authority NY-Sun Program and the Retail Storage Incentive Program. The company is in the process of initiating the preliminary screening analysis as part of the interconnection process.
