Usp30kw uninterruptible power supply

Overview

What is a UPS (uninterruptible power supply)?

A UPS (uninterruptible power supply) sits between an alternative source of power – such as a standby diesel generator – and protected loads.

What is a 30kVA ups rated?

The UPS are rated at 30kVA and their kW-rating will vary depending on the output power factor of the UPS. The UPS may offer parallel capability allowing two or more UPS to be configured for additional resilience into an N+X configuration. The range includes options for internal batteries and external extension packs to increase battery runtime.

What is a 3 phase UPS system?

Three phase UPS systems available from Server Room Environments for the protection of server rooms and datacentres. The UPS are rated at 30kVA and their kW-rating will vary depending on the output power factor of the UPS.

What is a 9355 ups?

The 9355 also offers an industry-leading combination of flexibility, scalability and power density—all in an innovative, high-efficiency package. The 9355's sleek, end-of-row tower design is available in 10 kVA and 20 kVA configurations, upgradeable to 15 kVA and 30 kVA, respectively, and offers the smallest footprint of any comparable UPS.
