VAT on BESS revenue from energy storage power stations

Overview

Will the UK offer VAT relief on battery energy storage systems?

In a significant move toward green energy efficiency, the UK government has announced plans to offer VAT relief on installing Battery Energy Storage Systems (BESS), including retrofitted BESS, which will become exempt from its 20% VAT from 1 February 2024.

When will the VAT charge be removed for battery energy storage systems?

As of 1 February 2024, the UK government has removed the VAT charge for domestic battery energy storage systems (BESS) under any circumstance. The policy change, initially announced in December 2023, followed a lengthy campaign by both Solar Energy UK and parliamentarians to include retrofitted BESS in the 20% tax exemption.

Will a battery energy storage system be exempt from VAT?

Heading to the Kubuqi Desert! AlphaESS' First Batch of 160MWh Energy Storage Systems Successfully Shipped! The UK government has announced plans to offer VAT relief on installing Battery Energy Storage Systems (BESS), including retrofitted BESS, which will become exempt from its 20% VAT from 1 February 2024.

Can I get VAT relief if I install a solar energy system?

Previously, VAT relief was only available for domestic BESS if installed together with a new solar energy system. As of Feb. 1, a VAT zero rate will also apply to retrofitted residential BESS. The VAT relief also applies to BESS when installed in charitable buildings.
