# **Vatican Mobile s solar container communication stations have multiple wind and solar complementarity**

## Overview

---

Will the Vatican transition to solar energy in 2024?

Nearly one year has passed since Pope Francis revealed his plan for the Vatican state to transition to solar energy as its main power source, as outlined in the 2024 motu proprio *Fratello Sole*, or “Brother Sun.”.

Why did Pope Leo XIV visit the Vatican Radio station?

Pope Leo XIV visited the Vatican’s radio transmitter station in Santa Maria di Galeria, Italy, on Thursday and thanked staff for their dedicated work in communicating the Church’s mission around the world.

What is a solarcontainer?

Solarcontainer explained: What are mobile solar systems?

The Solarcontainer represents a grid-independent solution as a mobile solar plant. Especially in remote areas it can guarantee a stable energy supply or support or almost replace a public grid with strong power fluctuations, as well as diesel generators that are used.

How can a solar container not cast a shadow on a photovoltaic system?

This property makes it possible for the container not to cast a shadow on the mobile photovoltaic system. The solar container is lifted using the corner corners in the roof frame. With these in the base frame, the module can be fixed and secured during transport using the twist-lock system.
