

# Victoria battery storage cabin supply

## Overview

---

Does Victoria have a battery energy storage system?

Victoria fast-tracks battery storage project for a sustainable energy future: The Victorian Government is assisting a renewable energy developer fast track its Battery Energy Storage System —now approved through the Development Facilitation Program.

Will Victorian Government approve a battery energy storage system?

The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of projects to support its renewable energy ambitions.

Why is Victoria a good place to store batteries?

Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW by 2035 to provide crucial support for more renewable capacity. Storage is a vital part of our electricity grid. In the future, much of our energy will be generated closer to where it is used and the way we use it will be more efficient.

What is the Victorian big battery?

We pay our respects to their Elders past and present. The Victorian Big Battery is a 300 MW grid-scale battery storage project in Geelong, Australia which stores enough energy in reserve to power over one million Victorian homes for 1/2 an hour. The battery has a 250 MW grid service contract with AEMO under direction from the Victorian Government.
