Should I buy a used 20ft shipping container?

How much does a cargo worthy container cost?

Cargo Worthy Containers are seaworthy shipping containers, meaning they are still strong and weather resistant enough to carry cargo on a container ship, but they may have wear and tear including dents, dings, or rust. A cargo worthy 20ft dry container can cost anywhere from \$1,300 to \$2,600.

Can a 20ft shipping container be used as a storage shed?

If you can name it, a 20ft shipping container can probably do it. 20ft shipping containers are a popular alternative to building a storage shed, given their compact design and weatherproof steel exterior.
