Warsaw 15G Energy Storage Project

Overview

Will Warsaw benefit from the construction of ten electricity storage facilities?

Warsaw is going to benefit from the construction of ten electricity storage facilities, thanks to a funding boost of over PLN 12 million from the National Fund for Environmental Protection and Water Management (NFOŚiGW).

How much PLN is available for energy storage in Poland?

PLN 4 billion available. On 23 July 2024, the National Fund for Environmental Protection and Water Management put under public consultation a new priority aid scheme entitled: “Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid”.

When will the energy storage scheme be launched in Poland?

Call for applications under the Scheme “Energy storage facilities and related infrastructure for improving the stability of the Polish electricity grid” will be launched already this year. Subsidy contracts are to be entered into by the end of 2025, while the period for spending the funds ends with 2028.

Why do we need energy storage facilities in Warsaw?

In summary, the construction of energy storage facilities in Warsaw is a significant step towards enhancing the city’s energy infrastructure, supporting the integration of RES, and ensuring a stable and secure power supply for its residents. This article was prepared by Institute of Fluid-Flow Machinery Polish Academy of Sciences.
