

What is the price of energy storage vehicles in Bergen Norway

Overview

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. “There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It’s the key to turning intermittent wind and solar into a stable energy source,” explains Pål Runde, Head of Battery Norway.

How big is Norway's battery market?

batteries for stationary energy storage - a market expected to reach EUR 57 billion by 2030. Now, a more mature Norwegian battery industry has greater potential to accelerate the renewable energy transition in Europe. Today Norway has not one, but two huge battery markets.

Is stationary energy storage a good idea in Norway?

Electric cars now account for 79 per cent of new cars sold in Norway, and the MS Medstraum was recently launched as the world’s first electric fast ferry. In a global report on lithium-ion batteries, Norway ranked first in sustainability. These are impressive records. Even so, stationary energy storage is beginning to steal the limelight.

What percentage of Norway's passenger car market is electric?

In 2024, 88.9 percent of the passenger car market in Norway was fully electric. Over 120 000 members, 13 active local Associations and hosts Europe's the Nordic EV Summit The Norwegian Electric Vehicle Association - NEVA - Everything you need to know about electric vehicles in Norway!
