What is the ratio of solar to energy storage in New Delhi

Overview

How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

What is Delhi solar energy policy 2023?

The Delhi Solar Energy Policy 2023 (hereafter, 'the policy') was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 MW from outside the state.

What is solar energy policy in Delhi?

This policy will apply to any solar energy generating system with a capacity of 1 kWp or more. It applies to all electricity consumers and entities that set up or operate solar power projects in Delhi.

How much solar capacity will Delhi have by 2025?

In December 2022, the Delhi Government released a draft solar policy that targeted a 6,000 MW solar capacity target by 2025. Subscribe to Mercom's real-time Regulatory Updates to ensure you don't miss any critical updates from the renewable industry.
