# **Where are the 5G network base stations in Afghanistan**

## Overview

---

Who is Afghanistan's fastest mobile network?

Afghan Wireless (AWCC) was Afghanistan's first mobile communications company today it has over 5 million subscribers. They recently topped Afghanistan's fastest mobile internet networks based on analysis by Ookla of tests taken with Speedtest® covering the first half of 2020.

Does Afghanistan have a mobile network?

Afghanistan's mobile network has undergone significant development since its introduction in 2002. Initially, mobile phones were introduced publicly, and by 2009, the industry had five million users with four providers investing over \$1 billion in building the network.

Which mobile provider has 3G coverage in Afghanistan?

Etisalat was the first mobile provider to launch 3G services and now has 3G coverage in 21 provinces of Afghanistan. They now provide voice and data services to approximately 3.5 million subscribers in 34 Afghan provinces and more than 200 districts supported by more than 12,000 retail outlets.

How many mobile GSM providers are there in Afghanistan?

There are now 5 mobile GSM operators competing in Afghanistan's telecom sector: Afghan Wireless (AWCC), Etisalat, MTN Group, Roshan and Salaam Network (Aftel). 2G/GSM is on 900 and 1800 MHz, 3G started 2012/3 on 2100 MHz and 4G/LTE services have started 2017 on Afghan Wireless on 1800 MHz (band 3) with other providers announcing it too.
