# **Which solar power system is best in Slovenia**

## Overview

---

How many solar PV systems are installed in Slovenia?

Majority of these PV systems were for residential installations. In 2019, there were 2,496 solar PV systems that were installed in Slovenia generating a total solar capacity of 31.2 MW. How many solar PV systems are installed in Slovenia?

What are the best solar companies in Slovenia?

Which are the best companies in Slovenia?

According to employee reviews on Glassdoor, the following companies in Slovenia are among the best: Deloitte rated 4.1 out of 5, IBM rated 4.0 out of 5, EY with a rating of 3.9 out of 5, and Novartis and PwC, both rated 4.0 out of 5. This list is based on anonymous submitted employee reviews. Who sells solar.

Which energy sources provide the most electricity in Slovenia?

Renewable energy sources other than hydropower (e.g., biofuels, solar PV, waste, and wind) together provided 3.5% of total electricity generation in 2019. Slovenia, both as an independent party and a member of the European Union, signed the Paris Agreement in 2016.

Does Slovenia have solar power?

Per analysis published by the World Bank which considers natural features of a location such as altitude, humidity, cloud cover, and topography, Slovenia's solar PV potential is relatively low compared to global resources, but is comparable to that of other central and eastern European countries which lie north of the Alps.
