

EQACC SOLAR

Wholesale 240v power station in Congo

Overview

What does Congo energy do?

Congo Energy participates in projects for constructing and/or renovating large-scale hydroelectric, solar and thermal installations, sub-stations, distribution and transformer stations and transmission networks. Marketing of energy products, repairs, after-sales and maintenance services.

What is the power sector in DR Congo?

Revised in September 2023, this map provides a detailed view of the power sector in DR Congo. The locations of power generation facilities that are operating, under construction or planned are shown by type – including liquid fuels, natural gas, coal, hybrid, hydroelectricity, solar PV and methane.

What products does Congo energy offer?

Congo Energy supplies a wide range of products tailored to the specific requirements of its customers' sectors of activity. From industrial lighting to street lamps, automation systems and energy management, Congo Energy offers reliable, superior quality products, carefully selected from its partners.

What certificate does Congo energy have?

Congo Energy has the certificate issued by ARSP (Autorité de Régulation de la sous-traitance dans le secteur privé). This certificate certifies that Congo Energy is authorized to work as a subcontractor in the Democratic Republic of Congo. Congo Energy strives to provide its partners and customers with high-quality products and services.
